

# APPLIED CRYSTALLIZATION WORKSHOP

**Does your macromolecular crystallization project feel like the Wild West?**

*Join our two-part Crystallization Workshop to learn to wrangle your crystals*

APPLY

## Virtual Crystallization Lecture

May 23rd, 2024

- sample preparation
- applying for beamtime
- crystal growth & optimization
- advanced crystal imaging

REGISTER

**What?** A macromolecular crystallization workshop

- one day virtual component in May 2024
- two separate 1.5 day on-site in Summer 2024

**Who?** Open to researchers at all levels: students, postdocs, PIs

*Favored applicants for on-site workshop will have submitted samples for high-throughput screening prior to the virtual workshop and have a sample to bring to set up*

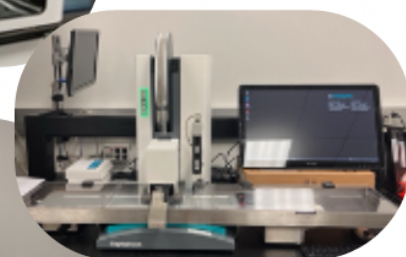

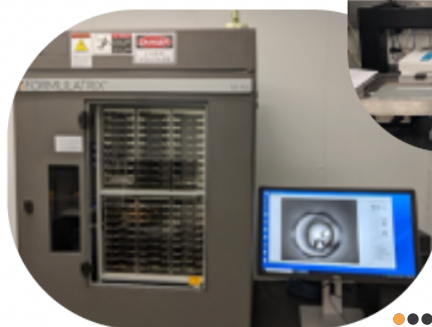

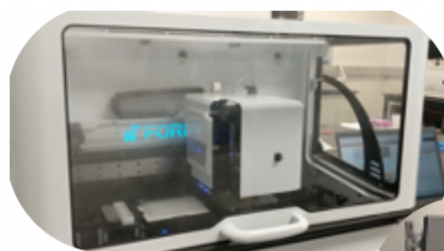

## On-Site Workshop

June 20-21 or August 20-21, 2024

(spaces limited)

- microbatch & vapor diffusion setup
- opportunity to utilize cutting-edge crystallization equipment
- harvesting tutorial

*Travel support available*
